

Awning System

markilux syncra fix / syncra uno fix awnings with folding arms

The ideal awning frame system with the minimum of space requirements – stylish sun and wet weather protection for large areas.

Product characteristics

Wind resistance class 2

Beaufort 5 → 7.5–10.4 m/s → 28–37 km/h → 17–23 mph

1 symmetrical footplate, standard

1 syncra uno fix with asymmetrical footplate, post close to the wall

2 with round or square support posts

3 syncra fix, combination example with the markilux 5010, round post

3 syncra uno fix, combination example with the markilux 6000, round post

4 cabling is run through maintenance ducts

continuous bracket fixture slots with plastic fillet ¹⁾

bracket for face fixture of the cross-beam on one side

1) optional configuration

Product characteristics

Description

- Free-standing aluminium frame system for the installation of markilux awnings on both sides (fix version) or on one side (uno fix version).

Special features

- free-standing protection against sun and rain – water drainage guaranteed if the awnings are set at a min. pitch of 14°
- the perfect solution especially for commercial, hotel and gastronomy requirements
- a post-free area under the awning
- awnings can be operated independently of one another
- support posts optionally round or square, incl. footplates which are bolted on
- posts with integrated cable ducts and maintenance cover
- aluminium frame system including top cover profile
- simple fixture of the awning frame to concrete foundations
- free-standing installation; can also be fixed to a wall on one side
- syncra uno fix enables installation of awnings close to a wall when direct fixture to the wall is not advisable
- powder coating available in seven markilux standard frame colours or in non-standard colours
- for configuration options, colours and dimensions please consult the chapter of the corresponding awning model in the sales manual

Dimensions

- maximum field width 700 cm
- support post height; standard height 320 cm, maximum height 450 cm (on request)
- posts available in intermediate heights
- a coupled system is available up to 3 fields

Awning profiles

- extruded aluminium, in façade quality, powder coated
- support posts round Ø 140 mm or square 125 × 125 mm
- post base plate square 400 × 400 mm, galvanised steel
- rectangular cross-beam, height 140 mm × depth 80 mm

Optional accessories

- markilux infrared heater
- markilux spotlight LED
- attractive footplate covers, made of die-cast aluminium, powder-coated
- a wide range of brackets for the installation of folding-arm awnings, vertical and side blinds, conservatory and pergola awnings as well as heating and lighting accessories
- adapter set for the fixture of the post to the Krinner screw-in foundation
- plastic fillet available (in white RAL 9016 or anthracite ≈ RAL 7016) for the bracket slots in the cross-beam

markilux planning service

In the case of larger construction projects, markilux can offer comprehensive planning support on request. Based on the dimensions and photographs supplied, on request we are able to offer the following services:

- a realistic photographic representation of the shading system in colour, optionally also as a 3D visualisation
- suggestions for special solutions
- technical drawings depicting possible solutions; they can also be used to accompany building permit submissions
- further consultation services up to final issue of order

A realistic photographic collage and a detailed technical presentation improve the quality of on-site consultation and the chance of success!

Planning permission

N.B! Please note that shading systems may be subject to compulsory planning permission regulations depending on the region!

Frame colours

markilux frame colours without surcharge

traffic white RAL 9016

metallic aluminium RAL 9006

grey brown, similar to RAL 8019

off-white textured finish, 5233 ¹⁾

stone grey metallic, 5215 ¹⁾

anthracite metallic, 5204 ¹⁾

Havana brown textured finish, 5229 ¹⁾

Non-standard powder-coated finish

Bespoke frame colours at a surcharge – matt, metallic and pearl finishes as well as other colour ranges (DB, Tiger etc.) on request. All frame colours are available at a surcharge with enhanced corrosion protection.

¹⁾ textured finish

Colours may differ slightly from those depicted in both hue and finish.

Concrete foundations

To be supplied on site:

Concrete foundations with a compressive strength complying with C25/30 (previously B25) with a reinforcement cage made of rebar matting Q188 for the outermost posts version F1 and the central posts version F2.

F1

F2

The footplates are to be fitted to the concrete footings F1 and F2

using Fischer marine-grade stainless steel anchor bolts FAZ II 16/50 and washers certified to DIN 9021 (or equivalent)

Please take into account the bracket fixture range of each individual awning type when adjusting the post separation on site. The support posts of the syncra frame system cannot be fixed in this area. The post separation, centre to centre, can be moved inwards by up to 15% of the awning width: minimum SAM = M – 15%
